DOUGLAS D. WATTS
PRIMARY EXAMINER

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Brown on April 29, 2005.

The application has been amended as follows: in claim 15 line 16 delete "and", in line 20 at the end thereof insert –and an adjusting mechanism disposed between the second member and the knob that allows the cutting blade to be placed in a plurality of positions with respect to the second member-.

The following is an examiner's statement of reasons for allowance: the above change to claim 15 merely adds the same limitation that was added to the other claims to overcome the art rejection. The language clearly defines over Springer since the adjustment mechanism, is attached only directly to the second member. Moving it upwardly to be between the second member and the knob would not appear to be a desirable or obvious modification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
